ALDEAVISION ANNOUNCES CONNECTION TO THE AZZURRO HD SWITCH IN NEW YORK CITY

AldeaVision expands its digital connectivity in New York City

Las Vegas, April 20th, 2009 – **AldeaVision Solutions Inc**, an innovative provider of international video broadcast transmission services, announced today at the National Association of Broadcasters Convention that it will be connecting to the Azzurro HD video switch in New York City. This new connectivity provides additional access options for customers wishing to send and receive video from any point on the AldeaVision global video fiber which covers 18 cities in 10 countries.

AldeaVision, a company of Grupo Marcatel, is a regular provider of international transmissions in High Definition (HDTV) and Standard Definition (SDTV) to television networks throughout the Americas and Europe covering political, entertainment and sporting events such as the Olympic Games at Beijing in 2008 and the 2008 US Presidential elections.

“AldeaVision now provides more options for customers who want to connect to our network in the New York City area and also more HD content sources will be available to our customers throughout the Americas and Europe. Azzurro HD’s location, digital switching technology, expertise and growing number of media and carrier clients were key factors for this new interconnect” said Mr. Eddy Barsetti, Vice President of Global Marketing of AldeaVision.

“We are very excited to have AldeaVision as a customer on our all digital HD enabled switch in New York City. With AldeaVision’s modern managed fiber optic network connections we will be able to offer our customers value added services through their state of the art technology and vast international reach” said Mark Lowden, Vice President of Sales Azzurro HD.
